## PHOTOGRAPHY SCAVENGER HUNT

### Introduction

Currently, we are all spending a lot of time in our homes. A photography scavenger hunt is a wonderful way to rediscover your environment with fresh eyes and an open mind. After the scavenger hunt you might find that you look at your home with a renewed sense of wonder. There is beauty and art right under your nose waiting to be discovered! If the weather is nice and you'd like to explore outside, be sure to observe social distancing. Fun for all ages.

## Reflection

After you capture all of the photos on the list, reflect on these questions:

1. What is your favorite photo and why?
2. As you explored your environment for things to take photos of, how did it make you look at your surroundings differently?
3. Now that the scavenger hunt is over, do you notice that you see things differently with your eyes?

## Materials Needed

- Camera (phone camera works great if you don't have a digital camera)
- Imagination

## Activity

### Photo 1

Take a bug's eye view photo.

Examples:

Done

---

### Photo 2

Take a bird's eye photo.

Examples:

Done

---
